Thankyou dear reader for giving this your precious  
time. This is a collection of thirty four original  
poems related to contemporary socio-economic and  
political situation and romance in English language.

# 1. HAPPY AGAIN

What I love the most,

Gives me the worst pain,

I will relinquish what I must,

And I will be happy again,

This terrain hasn't seen,

The likes of me,

I change every second,

Like a drop of rain,

I won't fade in vain,

I will be happy again,

In the abandonment,  
Buried in the sand,  
Desperate for a hand,  
Dumbfounded for sure,  
Stranded on the shore,  
Nobody would understand,

The suffering I inflict,  
With these thoughts on myself,  
Just like the other guy  
I too am going insane,  
Hoping I don't fade away in vain,  
I will see you tomorrow  
And try to be happy again.

## 2. I AM YOUR LEADER

Have a good damn look at me,  
I stand before you all true and free,  
I am your leader,

I live for your sake,  
Trust me and I will make,  
Almost no mistake,  
And I am not a cheater,

I come from a family,  
Like everybody,  
Judge me for being me,

I am not a stealer,

I don't say things right,

I might be a misfit,

I am average and I admit,

I am not a reader,

But I have no fear,

And as long as I am here,

I will fight for my dear,

Garden of Eden,

I have an ideal too,

I'll ask but never force you,

Take a chance and endorse me,

As I am a pleader,

My name is ##### ##

Have a good damn look at me,

I stand before you all true and free,

I am a just leader.

Have a good damn look at me,

Here I am all rough and mighty,

I am your leader,

Got a chance to brawl,

But I couldn't do it all,

To rise up again I fall,

I am a repeater,

I am made up of toil,

A son of the soil,

Let the temperatures boil,

I am a man of fire,

My past I can't recollect much,

Not even stressed as such,

But I own an iron clutch,

I am not a dreamer,

They thought I would fail,

But I am an alpha male,

Now they bow when I hail,

God's chosen preacher,

I hope I still believe,

I will try my hardest to deceive,

I will distort what you can see,

I am a deceiver,

My name is ##### ##,

Have a good damn look at me,

Here I am all rough and mighty,

I am the leader.

### 3. DON'T SAY NO

Don't say no,

Don't say no,

Don't say no,

Here we go,

I repeat,

I will fight,

Till the end,

Of the night,

This caprice,

Will not die,

Time to mend,

Don't ask why,

There ain't a teeny weeny bit of desire left,

And just one smoke worth of fire left,

Either with that burn the mountains down,

Or without it let that spirit go,

When the devil asks you for your lonely soul,

Amigo,

Don't say no,

Don't say no,

Don't say no,

Don't say no,

When the cupid plays poker with your heart,

Romeo,

Don't say no,

Don't say no,

Don't say no,

Don't say no,

Here we are,

In the dark,

Apparitions,

With a mark,

It seems sour,

May be rotten,

In oblivion,

Forgotten,

If you're still ain't one with a higher self,  
Pretty soon you'll be done with that tired self,

It's time, man up and face the town,  
Chances are going out the door,

When the devil asks you for your lonely soul,

Amigo,

Don't say no,

Don't say no,

Don't say no,

Don't say no,

When the cupid plays poker with your heart,

Romeo,

Don't say no,

Don't say no,

Don't say no,

Don't say no.

## 4. GIVE US THE POWER

We are not men of the people,

We are men of the hour,

Give us give us the power,

Rulers give us the power,

In the times of lying heads,

Days when fear happily weds,

Hypocrisy to wash the right,

We rise up to fight the might,

Pity the hypnotized brains,

Rumours run through their veins,  
We know but we can't accept,  
Barely making it through the rains,

Heroes pop out of nowhere,  
We would, when no one would care,  
For truth, not for the lime light,  
Rise up and fight the might,

We are not men of the people,  
We are men of the hour,  
Give us give us the power,  
Rulers give us the power.

## 5. WILL

Will Will live inside me now?

It was just dormant, it never died,

It will rise to save me like a hero,

From the addiction of giving in,

Don't just sit and count my vices,

On these last days be on my side,

I have made the worst of choices,

I suffer the torments of my sin,

Will has been,

So hard to find,  
You never win,  
If it's left behind,  
The sound inside,  
Seems alarming,  
Wipe that grin,  
Don't be charming,

What should I simply do now,  
This world has no beliefs now,  
Just waiting for reliefs now,  
We have all turned into thieves now,  
Fight for equality if it pays good,  
Just do what you really should,  
Reality seems like an empty race,

And I'd let you know better if I could.

## 6. COWBOY CASANOVA

Cowboy for the day,

Casanova for the night,

Ahoy sailor drift away,

Times are doing alright,

Amazing assets to parade,

And a swagger in the tone,

A sultry shine in the shade,

Like a tiger on his throne,

On your own go,

Riding down the valley of oblivion and void,  
The stud looks into the river of wandering away,  
In the age of whatever and android,  
The man walks on to dear doomsday,

It's time so,

Think for your freedom,  
Sing for your voice,  
Or do otherwise,  
It's your choice,

Rise up for the truth  
Rise up and ignite,

Rise up its time,

Rise up to fight,

So come along my,

Cowboy for the day,

Casanova for the night,

Ahoy sailor drift away,

Times are doing alright.

## 7. MR. MOON SALT

Mr Moon Salt,

It ain't his fault,

You can be low,

But not below him,

You may know it all,

But you don't know him,

He is bad and vain and vile,

He is not a man of good,

Sad, hurt, in pain for a while,

Still a snake in the wood,

Misunderstood by many,  
Remembered by a few,  
And you can be low,  
But he is lower than you,

Dear Mr Moon Salt,  
And it's never his fault,

In the area,  
Where he roams,  
Like a king,  
In his palace,

Ain't more than the,

Space he needs,  
Where his remains,  
Are kept to halt,

Like a dejavu,  
There he comes,  
Spreading,  
Hate and malice,

Saintly and good,  
Are busy working,  
To help others,  
Round the clock,  
But not Mr. Moon Salt.  
And it ain't his fault.

Mr. Moon Salt.

## 8. ORDER IN MY DISORDER

The order in my disorder,  
Is the disorder in world's order,  
The meaning of my life are my habits,  
But the meaning of life is broader,

I am because my craving wants me,  
But dear world nothing haunts thee,  
If not for addictions I won't move,  
World won't give, I don't want it for free,

I want to pay,  
With me, if I may,  
As life is so dull,  
But like a ripple,  
Vice gives it form,  
I make it a norm,  
To long for pain,  
To rot in vain,  
World eyes my thirst,  
But it must first,  
Give up the truth,  
And bow down to lust,

The world and me are too far away,  
I want to go and it wants to stay,

I know it doesn't care because it can't,  
Though I can, but I still don't anyway,

It beats them all and so I forfeit,  
Only victory is when we both defeat,  
The combined forces of order so that,  
In anarchy and disorder we will meet,

For now we quarrel,  
Travelling parallel,  
On opposite sides,  
Hitching out rides,  
Towards horizons,  
Searching for poisons,  
I will find but it won't,

It resists but I don't,  
It hints me the plan,  
It knows that I can,  
Fight and fulfil its wish,  
But I ain't even half a man,  
That it is,

The vacuum of the world's waste,  
Is just too surreal and chaste,  
But the void in me is filled with junk,  
And it leaves behind a tacky taste,

The order in my disorder,  
Is the disorder in world's order,  
The meaning of my life are my habits,

But the meaning of life is broader.

## 9. DO SOMETHING

Sorrow sets in just before you go to sleep,

It's easy to step out, it still isn't that deep,

The Kings rejoice, while moans the pawn,

Do something when you know what's going on,

Sliding on the carcass of some could've been,

Rot of an imp who was once a cherubin,

Strike a deal with hades before the dawn,

Do something when you know what's going on,

The sacrificial lambs line up to do wrong,  
Humming the tune of a hypocritical song,  
Make do with your now before its gone,  
Do something when you know whats going on.

Raise your fist and charge to the skies,  
Gather whats left of will, lest it dies,  
Line to cross over has been finally drawn,  
Do something when you know whats going on.

## 10. SHY STAR

You look like a shy star,

Shinning just as far,

Away to be faintly seen,

But I know its you my queen,

Your beauty inside and out,

Is uncomparable without a doubt,

Its about as clear and as clean,

As the fact that you are the best dearest queen,

You don't need to say a word,  
Just leave your magic unheard,  
I already understand what you mean,  
Because I know who you are my queen,

From what I have gathered so far,  
You are an avatar,  
Of some magnificent dream,  
But I know its you my queen.

# 11. NEVER YOUR FAULT

Just blame the signal,

Blame the connections,

Point fingers somewhere,

Preserve the sacred vault,

Never came the original,

Feels like apparitions,

Remember you don't care,

It's never your fault,

In the malts sinking,

Doing and not thinking,  
Shivering but not blinking,  
Singing along the rhymes,  
Smiling and winking,  
Linking and unlinking,  
Smoking and drinking,  
Away the times,

Kahani koī,  
Sunaoon tumhe,  
Deet jisme,  
Ho pyar kī,  
Aao dono hī,  
Bhoolein samay,  
Ghal milein,

In hawaon mein,

Khwabon ke,

Sagar mein,

Ek doosre,

Ke sang,

Ghal mil,

Jaayein,

Ek doosre ki,

Baahon mein.

Facing the tribunal,

Without protections,

Fortunates are rare,

Postpone the halt,

Just blame the signal,

Blame the connections,

Point fingers somewhere,

Preserve the sacred vault.

## 12. ARE YOU THE HOPE

Are you the hope,

Are you the hope,

Are you the hope,

Then don't elope,

You are just on the tip,

Just waiting to slip,

It's a sinking ship,

It's a sinking ship,

Wandering soul needs something to hold,

Sex drugs and rock and roll,

There is no hold like the love of Lord,

If its true truth be told,

Intoxication tickles some vices,

Soberity owns a few,

And the pathetic puzzle of choices,

Takes you where you are going to,

You can be the log,

Or you can be the king,

Are you the true God,

Or are you nothing,

Are you the song,

Or are you just singing,

Are you the rope,

Or are you just hanging,

If you are in the wrong,

Please do the right thing,

Are you the hope,

Or are you just hoping.

Are you the hope,

Or are you just hoping.

Are you the hope,

Or are you just hoping.

# 13. FEED ME LIES

You,

Like a poison,

That kills my smile,

Lives,

In my heart and,

Plays all the while,

Gives,

Me hopes and,

Feeds me lies,

Do,

What you want,

I'm done with whys,

As per me,

What I said,

Was wrong

But let it be,

It's like that,

Hippy trippy,

Crazy song,

Let it be,

Toxins of pain,

In my veins,

From your love,

I have got,

Dying in vain,

Bound in chains,

Tears of blood,

And what not,

You,

Like a poison,

That kills my smile,

Live,

In my heart and,

Play all the while,

Give,

Me hopes and,

Feed me lies,

Do,

What you want,

I'm done with whys.

## 14. VESSEL

When I am a part of the system,

I cannot see a lot.

That's why I stand on a highground,

To recognize the spot,

When I am the system itself,

I am blind to what I do,

I try to be a vessel,

But all I can be is you,

I am turning numb to thoughts,

They make me hate myself to the core,

The systems turn the wheels and I move,

Lost in emptiness some more,

I am sure I am wrong but it's been so long,

Since it's all been crappy,

Left all dry without a song,

I can't remember when I was happy,

I can't remember when I was happy,

And that happiness was nothing but chance,

But the system is making me crazy,

Give me a nice tune I just want to dance,

God is just another name for the Ideal,

And I feel that in the quest to be a just system,

I must rise to know,

That where we are gonna go,

But I am so down and so,

I am turning numb to thoughts they make me hate myself  
to the core,

The systems turn the wheels and I move, lost in emptiness  
some more,

I am sure I am wrong but it's been so long since it's all  
been crappy,

Left all dry without a song I can't remember when I was  
happy,

I can't remember when I was happy,

And it doesn't matter anyway,

I can't remember when I was happy,

*It's time to call it another day.*

*Goodnight goodnight dear system,*

*Just wait for me to rise,*

*Someday I will slide to your rhythm,*

*Just wait for the surprise.*

## 15. LOVE AND RELIGION

Her wandering eyes,  
Gaze through the skies,  
Once a patriot now,  
An immigrant in her land,  
Trapped in the devious plan,  
Of a few hateful men,  
She cries out loud,  
But doesn't understand,  
  
Here her parents were born,

Now her dreams are torn,  
By those who are playing a game,  
Of division in the name of identity,  
She was a citizen all her life,  
Now stands on the edge of knife,  
What have us Indians become,  
God save India from NRC,

Just like her,  
He is also numb,  
Everyday cursing,  
His crooked thumb,  
Which pressed upon,  
The national flower,  
Hoping to bring,

Prosperity to the valley,

But when the contacts broke,

Shackles came in freedom's cloak,

He couldn't know about her pain,

She is afraid, in vain and he is angry,

Traumatic rage in his mind,

Defiantly going through the grind,

Facing punishment that the evil and insane,

Inflicted while burning the shell of 370,

The two as students,

Met in the Capital,

A city that is synonymous,

With the word historical,

They stood with it against,

Corruption and rape,

Once they were India's finest,

Now they are in bad shape,

In the Duars she lives in uncertainty,

In the Karewas he fights anxiety,

Still praising lord five times a day,

Separated by over a thousand mile,

They had trust on India's empathy,

Couldn't fathom this breach of secularity,

Praying that over fear, love again holds sway,

And the indifferent India stops being docile,

While their wandering eyes,

Gaze through the skies.

# 16. INADEQUACY OF BEING

The inadequacy of being,  
When there is so much around,  
And you act that you are not fooled,  
So you are too afraid to ask,  
What ever is forced is true,  
Thinking is not an easy task,  
Mesmerizism and hate are,

Just hang in the perpetual guilt,  
And fear like a shadow waiting afar,  
Makes the mind give up on will,  
Not willing to accept the death of awe,  
It doesn't matter what you saw,  
Living in the sad society,  
You have nowhere to go,  
Its time its time,  
Its time lets go.

# 17. ANXIETY AND DEPRESSION

Anxiety and depression,

My only friends,

Its time something gives,

Its time something ends,

Instability and passion,

Have joined hands,

Its time something gives,

Its time something ends,

No one understands,

No one cares,

There is no one here,

But it pretends,

Like the air,

It always disappears,

Quests render pain,

Journey to the one,

It's time to let loose,

It's time to have some fun,

Or else just jump,

With the moment burn,

It's time to let loose,

It's time to have some fun,

And by the way,  
As its just another,  
Penny in the cup,  
Why even stay,  
Why even bother,  
Just give it up,

Its getting strange,  
Bubbles about to blow,  
Its time to change,  
Its time to go,  
Its killing itself,  
Its dying and so,  
Its time to change,

*It's time to go.*

## 18. LET YOU GO

*In love I am,*

*There is nothing I can do,*

*The forces are pulling us apart,*

*They say it's a sham,*

*Do you think so too,*

*Baby please don't break my heart,*

*I have been thinking about you forever and ever,*

*Hating why our love got jinxed,*

I have been trying to make this work and whatever,

But you don't want to hear those things,

I have been up I have been down and tossed around,

And about all of that you know,

I have been the joke of the town buried into the ground,

And now I'll have to let you go,

I'll have to let you go,

Away from my shadow,

I'll have to drive you,

Away from my soul,

I'll have to throw your memories,

Out of the window,

I'll have to burn,

All the letters we wrote,

I'll have to let you go,

Let you go,

Let you go away from me,

I'll have to let you go,

Let you go,

Let you go today baby.

## 19. PSEUDO ME

One amongst,

The hordes,

Of the powerless,

The sun amongst,

The flickers,

Of the desireless,

Not someone who,

Aims to make you agree,

Someone to be with,

When you are free.

I am a poet,

I write rhymes,

About love,

And the times,

Have a wish,

Then make it true,

Tell me what,

Do you want to do,

I am a Hope,

I am Hoping,

I am a Song,

I am Singing,

I am a Fraud,

I am a King,

I am a God,

I am Nothing,

I hate myself,

I hate the world,

I hate it all,

And I hate you,

Have a wish,

Then make it true,

Tell me what,

Do you want to do.

# 20. NEED WANT ME AND YOU

It's so easy to try and be free,  
It takes will and self control too,  
May be all you need is me,  
May be all I want is you,

We live through decades and centuries,  
And we end up being clueless fools,  
May be all you want is me,  
May be all I need is you,

In the dimly lit taverns,  
Thirst with fervour burns,  
Sobriety and slumber takes turns,  
Held back by the rules,

Come with me don't be scared today,  
Dear lady be prepared to go,  
The shining lights brighten up the way,  
Don't ask where we are going to,

Surely all you are is me,  
Clearly all I can be is you,  
My dear all I knew was me,  
Now here I understand you too,

Really all I have is you,

You can have anything you want,

Dearly beloved of mine are you,

No one can save me if you can't,

There is nothing possible for me to be,

And maybe it would mean nothing to you,

But baby maybe all you must have is me,

Darling all I should ever do is you.

# 21. SOCIALIST REVOLUTION

How to bring about,  
A socialist revolution today,  
Avoid the option,  
Of reformation being the way,  
Grasp thoroughly,  
The socio economic trends,  
Use technology,  
To arrange the meeting of your ends,  
  
On the crossroads,  
A few must burn to ash,

Sometimes be violent,

Sometimes be rash,

But always,

For the upliftment of the inadequate,

Only when,

The last stands equal we celebrate,

To reach through the loud crowd,

Raise your voice,

Learn discipline, courage,

And speaking with poise,

The herd needs a leader,

Not a teacher of things,

Also hurry a bit,

Before the fat lady sings,

Opportunities are a plenty,  
And plenty more can be made,  
Have your networks ready,  
When its time to raid,  
Not for yourself,  
Not for some society,  
Not for a country or race,  
But for humanity,  
After the end of silicon transition,  
Bring back the good revolution.

## 21. WAYS FOREVER

Madam should I not say,

Time is running away,

If not now then sadly never,

On to our ways forever,

Never it will ever be that,

We could have been a match,

If not now then sadly never,

On to our ways forever,

Sweep you of your sweet feet,

I wish madam if we ever meet,  
It won't happen however,  
There ain't a reason whatsoever,

That people like us should meet,  
Carelessly dancing with the beat,  
If not now then sadly never,  
On to our ways forever,

I try talking but,  
I never can dare,  
I freeze when I,  
Feel your presence dear,

You don't really care,

And I have never cared,  
I will whisper in your ears,  
No one will hear,

But when it's said,  
It won't be that clear,  
It won't happen however,  
There ain't a reason whatsoever,

That life gets a meaning,  
It all happened while you were dreaming,  
If not now then sadly never,  
On to our ways forever.

# 22. BASTARDS OF THE

# BURN

This is we,

All alone and free,

Who and where are we,

Nowhere and nobody,

We are none,

Abandoned by the sun,

Born to learn,

We are nobody,

Now cheer us on,

Standing strong,

Fighting wrong,

This is who we are,

You better,

Let the better,

Take its damn course,

Lets repeat,

With the beat,

Reason rationality,

On the ground,

No hard feelings,

And surely no remorse,

Bastards of the burn,

We are fugitives on the run,

What needs to be done,

Shackles as necklace,

We are beings of fun,

One and all,

All and one,

Bastards of the burn,

We are bastards of the burn.

## 23. VILLIAN VIRUS

Silently violent,

Blatantly killing,

Villain virus,

Relentlessly winning,

Spreading dividing,

Waiting and hiding,

Villain virus,

Lustily grinning,

Youth carries,

Old catches,  
From ventilators,  
It snatches,

Life out,  
Of the victim,  
The old perish,  
And succumb,

To infectious doom,  
Of a covert curse,  
Villain virus,  
Will make it worse,

Poor old lives,

About to be cut short,

Microscopic things,

Slay stoic Gods,

Dark days of death,

Of ravenous wrath,

Emptiness of the times,

Finds a fiend so fulfilling,

It cares not if you're,

Saving or sinning,

Silently violent,

Blatantly killing,

Villain virus,

Relentlessly winning.

# 24. WASH YOUR HANDS

Wash your hands,

At the doors

Or else just don't,

Go outdoors,

Keep distance,

Please don't touch,

In an emergency,

It's not too much,

To ask for a while,

Don't panic,

Don't lose that smile,

Stay hygienic,

It's not easy but try,

But it's the only way,

Some'll survive others'll die,

Live to see another day,

Corona is a upright person,

It won't come home uninvited,

Why face an awkward situation,

Avoid death once it's sighted.
