Thankyou dear reader for giving this your  
przeious time. This is a collection of thirty  
four original poems related to contemporary  
socio-economic and political situation and  
romance in English language.

# I. DANCE

Calling out for love,  
To anyone who can hear,  
We are mold in a form,  
By the system out here,  
Eyes searching for home,  
Finding it nowhere,  
Souls looking for hope,  
Just don't care, anymore,

The life that I have to live,  
The pain that I have to bear,

Prisoned in the clutches,  
Of plain fear and dull despair,  
Wearing the shame and pride,  
We move toward our demons,  
We build homes in our hells,

So whenever there is a moment,  
Remember what she always tells,  
Dance for music won't forever play,  
Enjoy the day lest it flies away

## 2. CUSHION

Baby , cutie, honey, doll,

As I love you after all,

Let me tell you my little wish,

Can I be the cushion when you fall,

Can I be by your side everyday,

Can I be the game that you play,

I will be what you want me to be,

Let me hear what you have to say,

Can I be the mirror when you smile,

Can I be with you all the while,

On hard days let me be your hope,

Can I be your everlasting mile,

Can I be the cushion when you fall,  
And when your head is against the wall,

Can I be the one to take you home,

Can I be the cushion when you fall,

I hope to meet you next Valentine,

I feel by then it will all be fine,

And then my love we will have a ball,

I dream that one day you will be mine,

Can I be the cushion when you fall.

### 3. WHY

Why why why o why,

Why am I the only one left in the end to  
cry,

My my my o my,

My lady, Misfortune keeps an eye on me  
from the black and blue skies,

But no, no no no no no oh no,

I ain't giving up oh no no,

They can't ever make me quit,

In my head is a kid, oh so stupid,

And he ain't ever getting convinced,

As it is how he keeps taking it,

Why why why oh why.

## 4. mobile

Outside while playing catch,  
With his dirty little friend,  
Bablu saw her sitting there,  
Pressing buttons with her hand,

In his lower caste poor village,  
Almost no one has a phone,  
He goes near to see it up close,  
The seed of greed is sown,

Urvi hated this cheap keypad cell,  
As she wanted one like Mom's,

A smart phone with Internet,  
As prescribed in the unwritten book of  
rich kid norms,

Sonu asked her to let him use it,  
She politely denied and walked  
homewards,

And so did Bablu with a want in his head,  
It was the only thing he wanted from now  
onwards,

At home the mother toils with the goat,  
While grandma in the corner awaits  
death,

The father is out to catch fish in the river,  
A family totally buried in debt,

He asks his mother for a phone,  
Only to receive a slap for being late,  
He weeps until father comes back,  
Who also kicks him without wait,

So amidst all the beating he decides,  
To steal it somehow from the girl,  
While she decided to throw it away,  
And demand for a new model,

So as he woke up he walked to her door,  
Strategizing about what to do,  
Just then the phone he so eagerly wanted,  
Came just then in his view,

Lying in pieces near her window,  
Broken but good enough for Bablu,  
Possibly she got what she wanted,  
Maybe she is happy for him too.

## 5. REST

Forget the trials,  
And the final test,  
Today I will just,  
Be taking rest,

Yonder problems can wait,  
But I won't go there,  
I have lost bad faith,  
And I just don't care,

My restless soul,  
Wants the freedom to be,

To not be a slave,  
To anything else but me,

This fake epitome of desire,  
Is not much fun at all,  
So when the alarms go higher,  
Deeper in slumber I fall,

I won't respond to any,  
Calls and bells today,  
Cozy in my corner stall,  
Happily for now I lay.

## 6. NUMBER

Never seen such amazingness,  
That which in your eyes I see,  
Lost in the happiness,  
Of the prettiest smile there can ever be,  
I would be so lucky to hear you speak,  
If you give your number to me,  
It would be a dream to kiss the lips,  
Of an angel like you dear beauty.

Kabhi humse bhi do ghadi,  
Karlo do baatein aze pari,  
Aise adhar mein chod ke,

Jasbaaton ko jhanjhor kə,  
Jaanz ki na karo hadbadi,  
Jaari rakho apni jadoogari,  
Karlo do baatein aə pari.

## 7. EMPTYLAND

How to truly disconnect,  
And how actually to stay in touch,  
Nor sure of any fact,  
Neither do I know that much,  
Not really a thing that I understand,  
Somehow passing days and nights,  
Another lost soul in Emptyland,  
Blinded by the darkest lights,  
  
Blinded by the darkest lights,  
Sinking in the shallowest of seas,  
Intimidated by the sorry sights,

Hiding behind immortal trees,  
Deep waters of ideology are rare,  
Glowing blackness shines my way,  
If we end up meeting somewhere,  
I will tell you what she said that day,

She said, "Dance".

Dance for the music won't forever play,  
Enjoy the day lest it flies away.

Blowing over the golden wheat,  
Is the cozy, calm and sweet,  
Wind, which ruffles her feet,  
Caressing the blessed sheet,

That embraces the angels form,

Defying each one of nature's norm,  
Like eternal peace amidst the storm,  
Carefree, wild, humble and warm,

A cherub playing the divine flute,  
When she is silent, world turns mute,  
Gracious, audacious, cuddly and cute,  
A heavenly crossroad on my lost route,

Nods her head as if to say,  
"Cheer up baby, don't delay,  
Dance for the music won't forever play,  
Enjoy the day lest it flies away."

## 8. PIECE OF TIME

You just don't think and I even see,  
Be aware that you are talking to me,  
I am on the brink of reality,  
Don't dare encroach my piece of time,

I am depressed, lost in God knows what,  
I don't care about anything at last,  
I have impressed upon myself, my own  
farcę,

Please spare my piece of time,

I am struggling to find the right words,

Flying in the air like busy birds,

Following the tracks of hasty herds,

All I have is my piece of time,

I'll meet you on the other end of the track,

We are all murderers of the facts,

Aren't we all just different shades of the

Black,

This right here, baby, is my piece of time.

## 9. YESTERDAY

I won't let yesterday ruin my, now,  
I'd have done different if I knew how,  
Join the thoughtless trail to nowhere,  
As there are no yesterdays in our  
prayer,

I have demeaned my will that asks me to  
rise,

Now I mock my filthy being, which  
consummates with lies,

But I can't remember how I ended up this  
way,

You see I have burnt away my yesterday,

Memory begs me to save it from oblivion,

Breath wails to be rescued from the  
dungeon,

If there was a better poison than this one,

Then let it be abused in the name of fun,

For none can ever die satisfied,

Just like them I too am petrified,

That if tomorrow will wear me down like  
today,

By then I would have blown away just  
another yesterday.

## 10. SLEEP

Carrying the dirt,  
On my rotten feet,  
Lying in the filth,  
Of forgotten dreams,  
No consciousness,  
Of ever changing the sheet,  
While falling out of,  
The world of memes,

I am going back,  
Into nature's lap,  
In the land of freedom,

Where every thing is alive,

Dear self can you leave,

While I take a nap,

In the sweet ocean,

Of sleep, let me dive,

Let me sink forever there,

There isn't a better place anywhere,

The only promise I wish to keep,

Is diving in that ocean of sleep.

# II. FADING STAR

Its about time, to stop,  
And think again,  
Or there will be sorrow,  
Instead of pain,  
Contemplate, is this,  
What we really are,  
Vanishing into the abyss,  
Another fading star,  
Some day from the top,  
There will be rain,  
Hope all the aspirations,  
Don't die in vain,  
The habit of carelessness,

That has gone too far,  
Floating in randomness,  
Down below the bar,  
Contemplate, is this,  
What we really are,  
Vanishing into the abyss,  
Another fading star,

## 12. WHAT TO DO

Pull me out,  
I've sunk too deep,  
Round about,  
Every time I sleep,  
Emptiness mars,  
Part of my soul,  
While I ride the stars,  
Falling into a black hole,  
Universes I see,  
Scattered around like dirt,  
While with energy,  
The masses queue to flirt,

Through the waves,  
The giants move,  
While my heart misbehaves,  
It remembers you,

It remembers you,  
My prodigal mate,  
Tell me what to do,  
Take me to heaven's gate,  
I don't have a clue,  
Tell me what to do,  
I'm surely lost,  
Tell me where to go,  
Tell me where to go,  
Tell me where to go,  
I am surely lost,

Tell me where to go,

Tell me what to do,

Tell me what to do,

I don't have a clue,

Tell me what to do.

13. FOREVER

WAITING.

Don't know,

Where to go,

Don't wannabe,

Anything,

The road left,

Long ago,

Has been forever,

Waiting,

Reached too far,

Down nowhere,

Its been,

Exhilarating,  
Fading away,  
Sitting there,  
The solution lies,  
Stating,  
“To yourself,  
Don't lie,  
Give it,  
One more try,  
Do what is,  
Truly right,  
Only truth is,  
Liberating”,  
So goodbye,  
Dear course,  
Departing,

With no remorse,  
For the road,  
Left long ago,  
Has been forever,  
Waiting.

14. IMMORTAL

DEMON

On the long road leading to a sudden  
end,

Lives the bad man who will never amend,

His ways of conning each one of his  
friends,

They enter waving loaded guns in their  
hands,

He runs for his life out of the back door,

Leaving behind so much blood and gore,  
They will never get him, of that be sure,  
The tyre's rubber burns, while the  
engines roar,

On the bridge he tricks them into falling  
down,

Cars making nose dives into a river that  
frowns,

The floods carry them, they hit the rocks  
and bounce,

He some how holds on while his killers  
drown,

Not living on the edge, you take too much  
space,

Not living on the edge, you take too much  
space,

Not living on the edge, you take too much  
space,

Life is the showdown, rest is just waiting,

You can never slay him,

He is the immortal,

The immortal,

The immortal demon,

Beware there will be mayhem,

He is the immortal,

The immortal,

The immortal demon.

## 15. HERE I GO

I lost all shame long ago,  
Like a godforsaken tramp,  
Another heartbroken romeo,  
Here I go, see me crying,  
Here I go,

I am ashamed, I am meek,  
I am weak, I am shy,  
I have got nothing else say,  
Let me leave, so goodbye,  
Here I go,

I kept fooling my foolish self,  
Begging for help, my soul screams,  
And you know what really hurts,  
Is the shattering of dreams,  
So here I go,

I thought that even I can win,  
Alas chagrin, again hits low,  
Though I was spared the pain,  
But death by misery is slow,  
So here I go,  
Here I go.

16. MY EVE

My Eve,

Do you remember the garden,

For that day,

I still beg your pardon,

We did things,

That we ought not have done,

We were so darn,

Modern, modern, modern,

Though we didn't,

But we could have fought it,

Though tempted,

But we shouldn't have bought it,

What we started,

Still hasn't been aborted,

Will it ever get,  
Sorted, sorted, sorted,

Yes ma'am,  
It was just like magic,  
It may seem,  
But it wasn't at all sick,  
Why does it,  
Today seem so tragic,  
Wasn't it always,  
Our most favorite pick,  
Wasn't it just,  
Magic, magic, magic.

# 16. AWKWARD

## REALITY

As you know,  
That the good old days,  
Are fading out,

So don't be,  
Crazy about,  
The way things used to be,

Don't go oh wanderer,  
Jumping into,  
Each abyss,

The memories of Bliss,  
Are the only,  
Route out of Misery,

This millennial's indifference,  
Is not really,  
Uncalled for,

They are all,  
So damn sure,  
Of their amazing potentiality,

We have demands,  
Not preferences,  
And no happiness,

Be our guest,  
In the nakedness,  
Of awkward reality.

# 17. WE WILL BE BACK

Nuances left behind untouched,  
Chances we couldn't convert,  
Instances promising some worth,  
Do wait for us as we'll be back,

Moments of innocent tranquility,  
Peace in the cloak of futility,  
Bliss of this lovely gracility,  
We must revisit as those we lack,

Addictions in the name of utility,

Evolution into beings of docility,  
A mockery of honest humility,  
Are some of the things we'll attack,

Silver lines,  
Residing on our head,  
We might be aging,  
But we are not dead,  
Do wait for us,  
As we'll be back.  
Do wait for us,  
As we'll be back.

# 18. WHATS YOUR NAME

Yes we see that we are all so different,  
Of course we know we are all the same,  
Discrimination is neither bad nor  
brilliant,  
Damn you Opinion tell me whats your  
name,

Its true that it seems ideologies are  
losing relevance,  
But therein lie the key to human  
deliverance,

Don't let a good intention's bad  
consequence,

Scare you, tell me what's your name  
Indifference,

They kill for wealth and con for lust,  
They die for glory and live for fame,  
Don't we all just want to be the first,  
Bloody Ambition, tell me what's your  
name.

# 19. DANCING IN THE

## RAIN

Last time we got lost,  
Hope it doesn't change now,  
Maybe we can come closer,  
If only you'd allow,  
You don't remember me,  
But in my mind you are etched,  
Maybe this November we,  
Can continue where we left,  
My thoughtless head,  
Resting in your lap,  
Rolling in the bed,

Never allowing a gap,  
To ever occupy,  
The space in between,  
Don't you pass by,  
Avoiding me my Queen,  
As you are strong enough,  
To forget that night,  
Which has forever been,  
My heart's only delight,  
Dear flower about that garden,  
That again I see in my dream,  
With no powers helping me,  
Distant it may seem,  
But the inches of distance,  
That separates us two,  
Is too much to let you hear,

My innocent I love you,  
Though only a few know,  
The lovely feeling of pain,  
I still remember your subtle glow,  
Do you recall us dancing in the rain.

## 20. IGNITE THE FIRE

Just a shadow,  
Roaming on its own,  
Hiding from the light,  
In darkness thrown,  
Need a reason to bother,  
Bring something to burn,  
Please pour some water,  
In the flaming urn,  
Ignite the fire,  
The sparks need a vent,  
A moment of thought,  
Is time well spent,  
Ignite the fire,

Change the paradigms,

Bring forth justice,

Immortalize our times,

Ignite the fire,

Light up the mind,

Better move forward,

Than falling behind,

Ignite the fire,

To blind the sun,

Ignite the fire,

And help someone,

Ignite the fire,

Ignite the fire.

# 21. HAPPY TONIGHT

Oh love why're you shaking,

You are the one,

That makes the world go around,

Dear one, don't be mistaken,

No secret is buried too deep,

That by you which can't be found,

Woo-hoo,

Baby baby,

You're the music,

You are the symphony,

You are the lyrics,

Of the songs I write,

The lords, the Gods, my words,

Are craving for your company,  
Oh baby let me make you happy tonight,

Soaking the clouds,  
Draining the suns,  
Oblivious,  
Of where the time runs,  
I can see you,  
With or without the light,  
Don't be so sure,  
That you can ignore,  
The sighs of the divine cherubins,  
Oh baby baby baby baby baby baby,  
Baby let me make you happy tonight.

# 22. REMEMBER MY NAME

To myself,  
To my world,  
To it all,  
I bring shame,  
For anything,  
That there is,  
There is,  
No one else to blame,  
I wanted truth,  
And freedom,  
I chose logic,

I chose doubt,  
Roundabout now,  
I go silent,  
Hope you remember,  
My name,

Born to drink,  
Alcohol,  
Took birth in this world,  
To smoke weed,  
As you can see baby,  
The kind of mood I am in,  
I hope honey you know,  
What I need,

Long ago,

At a place far away,  
We rushed to save,  
Our sick souls,  
But when we discovered,  
Uncovered the truths,  
We are nothing more,  
Than actors playing our roles,

To myself to my world,  
To it all I bring shame,  
For anything that there is,  
There is no one else to blame,  
I wanted truth and freedom,  
I chose logic and doubt,  
Roundabout now I go silent,  
Hope you remember my name.

## 23. MISERABLE LIFE

The flowing hairs of that glowing girl,

In an oyster like world rests this  
precious pearl,

And all I can do is look at that face and  
sigh,

The most beautiful thing in my miserable  
life,

The zephyr over the ocean kisses her  
lonely cheek,

The chances of me getting to touch her  
are bleak,

I could have touched that wind if I was  
the tide,

The most beautiful wish in my miserable  
life,

But she is oh so far away from me now,  
I would pass on my love to her if I knew  
how,

I wish I could commit to making her my  
wife,

But as we know I am the cowardly type,  
I chicken out after all the romance and  
hype,

The most beautiful blessing in my  
miserable life.

## 24. BUNDLE OF JOY

She is caught up in her story,  
Left in her paradise,  
And in her glorious collar,  
There is no tag of price,

She is a fighter in the battle,  
She is a princess at war,  
She is a baby when in love,  
She is worth waiting for,

When I see her in the morning,  
Waking out of her bed,

Sinful thoughts of pleasure,

Run wild in my head,

She passes by my shadow,

She walks into my soul,

Makes today like no other,

Makes me lose control,

Carnal sentiments of urge,

Running through my veins,

The joyous touch of her skin,

Heals pain and strains,

She is a fairy from the heavens,

She is a bundle of joy,

And the story that we share,

Has made me the luckiest boy,

She is a bundle of joy,

My silly brilliant dame,

From the skies down she came,

My cozy bundle of joy.

# 25. IF YOU WANNABE

## THE GUY

If you,

If you,

If you wannabe the guy,

Don't give up and die,

Get back up and fight,

Everyday so many losses,

And almost nobody'll cry,

If you,

If you,

If you wannabe the guy,

Then you must know that,

You ain't nobody,  
That you are not understanding,  
You don't deserve,  
That which you are demanding,  
Why do you believe,  
That you are one in a million,  
Gazillions of you everyday,  
Lose out here,  
If you wannabe the guy,  
Then be the one in a gazillion,

You can never stop,  
There is no time to breathe  
When you're fighting,  
Don't do no wrong,

When you can do the right thing,  
Underneath your wings,  
There is magic so dream big,  
But don't just look for the greatest,  
Also admire the silly one,  
And if you wannabe the guy,  
If you,  
If you,  
If you wannabe the guy,  
Then be the one in a gazillion,  
If you,  
If you,  
If you wannabe the guy.

## 26. MYSTERY DIED

The mystery died,

Poetry died,

Turning to prose,

Done with rhyme,

Wasted emotion,

Wasted time,

In translation found,

Lost in sound,

The stories live,

Theories live,

There is only pain,

Here to spread,

Forget the past,

And go ahead,

Cursed to doom,

In the womb,

Locked in a room,

Freedom cried,

Then the mystery died,

And then poetry died.

# 27. LONG LIVE THE COMMONERS

Long live the commoners,  
Long live the Queen,  
Long live the conspirators,  
And everyone else in between.

The Lord's men surround me,  
They just want me to know,  
That the Gods have laid the path,  
And made a way for me to go,

Long live the commoners,  
Long live the Queen,  
Long live the conspirators,  
And everyone else in between.

The King's men parade the grounds,  
Searching for the rebel who ran away,  
The Nobles have devised a plan,  
To overthrow the crown today,

Long live the commoners,  
Long live the Queen,  
Long live the conspirators,  
And everyone else in between.

Somewhere outside the city,

There is an army waiting to raid,  
The mole is waiting at the gates,  
Everyone has been duly paid,

Long live the commoners,  
Long live the Queen,  
Long live the conspirators,  
And everyone else in between.

## 28. DELAY

Just two words,  
From your side,  
Is all that I ever,  
Want to hear,  
With the birds,  
My heart flies,  
Call me whensoever,  
And I'll appear,  
By your rules,  
I wish to play,  
And I know what,  
You want baby,  
Don't let this,

Moment fly away,  
But unlike yourself,  
You delay, delay, delay,  
Everyday delay, delay,  
I'd delay taking a breath,  
If it'd make you something say,  
Please delay breaking my heart,  
Sexy, honey, don't do it today.

# 29. TRUTH WORTH

## DYING

Give us the word,  
A truth worth dying,  
Save us from emptiness,  
Stop us from buying,

In to the lies of greed,  
Deceit to be degraded,  
Sedated, forced to concede,  
Pay heed, be liberated,  
From fear's dark prison,  
Damn if it isn't a vision

Ponder over it from our position,

There is no confusion,

Delusions seem so true,

Someone must tell us,

What to do,

Make us feel zealous,

Renewed by a vigor,

We snigger and trigger,

The countdown to bliss,

And just like a kiss,

Of a sweet songbird,

That makes it all fine,

Give us the word,

A truth worth dying.

## 30. MARY JANE

Mary Jane I love you so,  
And so I can't let you go,  
But go I must into the real,  
Lady how you make me feel,

As you know baby less is more,  
More it becomes like before,  
When rarely we got to meet,  
Smoking hot in the heat,

Repeating mistakes lovingly,

And not just you and me,  
But the airs were blowing high,  
You said you saw it in my eye,

The effects of instant gratification,  
I thought you were a hallucination,  
For nothing so perfect I ever knew,  
And so Mary Jane I fell for you,

But too much of good is bad,  
The spark that we once had,  
Kind of faded long ago,  
And I know you told me so,

Don't stay, leave when you've had it,  
No strings, no baggage and no habit,

From you I will my lifetime steal,

The scars left behind must heal,

Separated now but we will reunite,

On some magnificent night,

Find a second then for your Romeo,

Not forever, just a little cameo,

Make me fly when I feel low,

Kiss me under the moon's shadow,

The dark smoke can't conceal,

Baby how you make me feel,

Sweetie I can't let you go,

Mary Jane I love you so.

## 31. WILL IS IT

You are not in the position bro to go,  
Its not your situation bro you know,  
Why are you taking so much pain to  
please the world,

You just remember that will is it,  
That will is it,

Down in the dumps will went through  
slumps,

And bumps, but he'd bounce right back,  
He doesn't cry,

Oh no he doesn't sigh,

He doesn't give a fuck,

Past was just bad luck,

Stuck inside my head,  
If only some help it had,  
Duty you owe to the world,  
Squeezed against the wall,  
And will will rise if only,  
Fly to the skies if only,  
It's the essence of the universe,  
Deeply engrained inside my brain,  
And in this verse I say if only,  
Hoping will rides back,  
All dressed in black if only,  
Returning from the trip,  
Full upto the flaccid lip if only,  
Say it to the flies,  
Convey it with a voice if only,  
Today will will rise.

## 32. SORRY

I am your lover I am your best friend,  
You are the light that brightens my day,  
Whatever happens we will be together in  
the end,

I love you is all I have got to say,

Don't hate me because jealousy turned  
me mad,

You are the only greatest blessing I have  
ever had,

Forget all the unpleasant words that I  
have said,

You are my destination and you are my  
way,

Forgive my anger and pardon my  
crazyness,

Take my heart in your feet it will lay,  
Until we make our escape out of this  
mess,

Let me adore you again like always if I  
may,

I don't care that you can't control your  
urge,

We will cross this hell fire and this  
demon we will purge,

Our love will again find a renewed  
upsurge,

Just accept my heartfelt apologies baby.

## 33. KNOW HER WELL

She doesn't know the meaning of her  
name,

And she sure is damn funny as hell,

And if I only had a chance,

I'd love to know her very well,

Dil pe patthar pad rahе the,

Jigar pe churiyan chal rahi thi,

Bahut yaad aa rahi thi aapki,

Paas aap jab nahi thi,

But tell me my honey,

What do you think,

Whats the link that has instantly brought  
us near,

I fear I don't jinx it up,

I only hope if you were right now just  
right here,

Shayariyan likha karte the,

Roz ahista thoda thoda marte the,

Ap aayenge nazar pe soch kar,

Apke intizaar mein sanwarte the,

My dear I fear that beauties like you,

Are too few for the people of this place,

And your face let me tell you baby,

I will remember till the end of my days.

Khayalon mein din guzarta hai,  
Har pal aaj kal dil tumhe yaad karta hai,  
Badhta hai pyar man mein jab lagan lagti  
hai,  
Teri lagan magan hone se ye pagal man  
darta hai,  
Fir bhi ye pyar tujhi se krta hai.

If only your ways right now I could see,  
I'd be the happiest man alive,  
If your eyes right now darling you show  
me,  
In their depth right now I'd dive.

# 34. UP TO YOU

Its up to you

What do you

Want to do

Your opinion

On what

Should happen

Is up to you

Lets drink

To that

Where your

Minds at  
The end and  
The rendezvous  
Isn't up to you

The world will be  
What you want  
It to be for now  
It takes orders  
But keep it down  
Whats old and new  
Isn't up to you

Its up to you  
To change for good  
Be a legend

Like Robinhood  
Do right be true  
What comes from it  
Isn't up to you

You just don't know  
About society  
But you are so  
Fidgety to go  
Step in it's shoe  
Pretending as if  
Its all up to you.
